

Seminar Series in Behaviour & Evolution

Winter Semester 2018/2019

On Wednesdays in W0-135

Date	Time	Speaker	Title
10.10.2018	12.15	Hanja Brandl , Universität Hamburg (host: Caspers)	Information use in wild zebra finches
17.10.2018	12.15	Niels Dingemans , Ludwig-Maximilians-Universität München (host: Korsten)	Personality-related variation in life-history
24.10.2018	12.15	No seminar	
31.10.2018	12.15	Toni Gossmann , The University of Sheffield, UK (host: Krüger)	Exploring genomes for evidence of selection
07.11.2018	12.15	Ulrich Steiner , Univ. of Southern Denmark & Max-Planck Odense Center on the Biodemography of Aging (host: Schmoll)	Environment & genes: is there more to evolution?
14.11.2018	12.15	Fabrice Helfenstein , University of Neuchâtel, Switzerland (host: Schmoll)	Oxidative stress in sperm competition games
21.11.2018	12.15	Robert Serrouya , University of Alberta & Alberta Biodiversity Monitoring Institute, Canada (host: Wittmann)	Contrasting predator prey theory with field data to recover an endangered species
28.11.2018	18.15	Immelmann lecture Iain Couzin , Max-Planck-Institute for Ornithology, Radolfzell Collective sensing and decision-making in animal groups	
05.12.2018	12.15	Robert Paxton , Martin-Luther Universität Halle-Wittenberg (host: Reinhold)	Eusociality: insights gained from facultative social sweat bees
12.12.2018	12.15	Michael Krützen , University of Zurich, Switzerland (host: Kalberer)	Achieving local adaptations via genetics and behaviour - explaining geographic variation in great apes and dolphins
19.12.2018	12.15	Franz Goller , School of Behavioural Sciences, University of Utah, USA (host: Krüger)	Why do birds produce sound?
09.01.2018	12.15	Sarah Lane , University of Plymouth, UK (host: SK Paul)	Sea anemone contests: Drivers and constraints
16.01.2018	12.15	Gregory Charrier , University of Brest, France (host: Hoffman)	Mechanisms underlying spawning site-fidelity and population structure in marine fishes: evidence from cod
23.01.2018	12.15	Wolfgang Forstmeier , Max Planck Institute for Ornithology, Seewiesen (host: Korsten)	Sexual selection and sperm competition in the zebra finch
30.01.2018	12.15	Anissa Dudde , Friedrich-Loeffler-Institute, Celle	Effects of selection on behavioural traits in domestic fowl

All interested are welcome!
