

Four decades of mechanism: which mechanism, and what for?

Gastvortrag von Raffaella Campaner (Bologna)

25.4.2018, 18.30 Uhr, Raum X-E0-200

The talk will address and discuss a few aspects of neo-mechanism in the light of the development the mechanistic perspective has had in the last four decades, stressing what is new and what is not that new. In the second part of the talk, a few issues will be pointed out which arise from the discussion of mechanistic notions, more specifically, in the mental health sciences, and which question the fruitfulness of neo-mechanism in that disciplinary context.
