

Kolloquium „Quantitative Methods and Statistics“  
Beleg-Nr. 300091

SoSe 2017

Research Class „Quantitative Methods and Statistics“  
Beleg-Nr. 300106

Method Class quantitative  
Beleg-Nr. 300225

Di 16 - 18 Uhr  
Raum X-E0-212

### Referatstermine

<b>Datum</b>	<b>Name</b>	<b>Thema des Referats</b>
25.04.2017	Jost Reinecke	Three-Step Latent Class Modeling with Covariates
09.05.2017	Kristian Kleinke	Quantile regression based multiple imputation
16.05.2017	Kevin Fischer	Estimation of growth parameters without the use of longitudinal information: The Cohort Growth Model
23.05.2017	Miriam Reußner	Methodology of SEM
30.05.2017	Lucas Schaper	Digital Health Insurance
20.06.2017	Georg Kessler	Titel folgt
27.06.2017	Anke Erdmann	Analysing Life-Course Victimization Using Latent Growth Curve Models
04.07.2017	Lena Verneuer	Violence as a sanctioning reaction: On the link between violence and (victim) sensitivity to injustice
	Christian Powill	Non-response bias
25.07.2017	Carolin Stummeier	Updating the Effort-Reward Imbalance Model
	Florian Kaiser	Morality
