The Collaborative Research Center, CRC-TR211, has an immediate opening for a
doctoral position in Theoretical Physics
(E13 TV-L / 65%) (non-permanent position)

Your Tasks
The theory division of the physics department at Bielefeld University has an immediate opening for a doctoral position within the newly founded Collaborative Research Center CRC-TR 211 “Matter under extreme Condition” of University groups in Bielefeld, Darmstadt and Frankfurt a.M. The position is funded by the German Research Foundation (DFG). Successful applicants are expected to contribute to perturbative calculations in a research project on “Strong interaction matter in the early Universe”. The position (65 %) is initially funded for three years.

Successful candidates are expected to:
• contribute to research on QCD at high temperatures and out of equilibrium using perturbative methods (ca. 75 %)
• participate in the joint research work performed in collaboration with groups in Darmstadt and Frankfurt (ca. 15 %)
• contribute to combined research of the whole CRC, including attendance and preparation of common activities as e.g. the yearly „retreat“ or the „topical workshops“ (ca. 5 %)
• participate in the organization of the academic life in the Physics department (ca. 5 %)

We are looking for scientists who are motivated to actively contribute to the goals of Collaborative Research Center in cooperation with its members in Bielefeld as well as the two other nodes of Darmstadt and Frankfurt.

Your Profile
We expect
• a degree (master or equivalent) in physics
• very good knowledge in relativistic quantum field theory
• general interest in the research spectrum of the CRC
• team work and communication capabilities
• good knowledge of English

Our Offer
Salary will be paid according to Remuneration level 13 of the Wage Agreement for Public Service in the Federal States (TV-L). As stipulated in § 2 (1) paragraph 1 of the WissZeitVG (fixed-term employment), the contract will be for three years. In accordance with the provisions of the WissZeitVG and the Agreement on Satisfactory Conditions of Employment, the length of contract may differ in individual cases. The employment is designed to encourage further academic qualification. The position is advertised as a part-time job (65%). In individual cases, this percentage may be reduced on request, as long as this does not conflict with official needs.

Bielefeld University is particularly committed to the career development of its employees. It offers attractive internal and external training and further training programmes. Employees have the opportunity to use a variety of health, counselling, and prevention programmes. Bielefeld University places great importance on a work–family balance for all its employees.

Application Procedure
For full consideration, your application and two recommendation letters should be sent via either post or email to gudrun@physik.uni-bielefeld.de by the 1st of September 2017. Please mark your application with the identification code: wiss17146. Please do not use application portfolios and send only photocopies of original documents because all application materials will be destroyed at the end of the selection procedure. Further information on Bielefeld University can be found on our homepage at www.uni-bielefeld.de.

Bielefeld University has received a number of awards for its achievements in the provision of equal opportunity and has been recognized as a family-friendly university. The University welcomes applications from women. This is particularly true with regard both to academic and technical posts as well as positions in Information Technology and Trades and Craft. Applications are handled according to the provisions of the state equal opportunity statutes.

Applications from suitably qualified handicapped and severely handicapped persons are explicitly encouraged.
