

## **Mentoring agreement as part of the Structured PhD programme of the Department of Psychology**

The undersigned hereby confirm that mentoring has been agreed for a project duration of 3 years as part of the doctoral program in psychology. During this time, \_\_\_\_\_ meetings are planned (at least 2 per year, each lasting about 1.5 to 2 hours). The time investment for the mentor is limited to the meetings with the mentee.

The mentee is aware that the exchange does not refer to content-related aspects of the doctorate/PhD studies, but that the focus is on topics relating to a successful doctorate and career development.

Mentor and mentee agree to treat all information and documents exchanged in the mentoring relationship as confidential. This includes personal data, research results, ideas, plans and any other confidential content shared during mentoring meetings or via other communication channels.

At the end of the program period of 3 years, the mentor and mentee discuss whether they would like to continue the mentoring relationship.
