

CITEC Colloquium “Vision Science“

Summer Semester 2009

Organization: Werner Schneider, Neuro-cognitive Psychology

Date	Speaker	Title
22.04.2009	 Miriam Beisert MPI for Cognitive and Brain Sciences	Transformation rules in tool use
29.04.2009	 Anna Belardinelli Universität Bielefeld	Visual selection by salient features: A computational model derived from human evidence
06.05.2009	 Gernot Horstmann Universität Bielefeld	Is emotion a powerful attention attractor?
13.05.2009	 Leo Chelazzi University of Verona	The many pathways to visual selective attention
20.05.2009	 Kathrin Finke LMU, München	Parametric assessment of attentional capacity and attentional selection
27.05.2009	 Bernhard Hommel University of Leiden, NL	Grounding attention in action control
03.06.2009	 Peter König Universität Osnabrück	Overt visual attention under natural conditions
10.06.2009	 Karl Gegenfurtner Universität Giessen	Visual signals for smooth pursuit eye movements and perception
17.06.2009	 Peter Wolff Universität Osnabrück	On the visual basis of space perception: From isomorphism to a sensorimotor account
24.06.2009	 Chris Olivers University of Amsterdam, NL	A Boost & Bounce theory of attention: Ditching the soup stone
01.07.2009	 Heiko Wersing Honda Research Institute, Europe	From neural processing models to cognitive vision for robotics
15.07.2009	 Jan Zwickel LMU, München	On the influence of Theory of Mind processes on Simon and SNARC effects
