Additional information:

Use this category if you find it to be applicable. Should you not need it, you simply leave it open or type in 'n/a'.

Here, you can give voluntary information on circumstances which may have impacted your scientific career so far, in order for this to be considered in the assessment of your achievements. Such circumstances could be but are not limited to: long or chronic illness, disability, child care, single parenthood, parental or other family leave, career for other relatives, military, civil or voluntary service, constraints due to the Covid-19-pandemic, earning your livelihood during your PhD in jobs unrelated to your research (e.g. teaching or jobs outside academia), international migration, integration phases, acquiring of new languages, asylum applications. Please also specify in which way it had an impact on your scientific career so far. All information will be treated confidentially.
