Bielefeld University promotes dual career couples and supports them with a service offer. It is an important task to have women and men working together. The University would like to expressly invite qualified female applicants to apply. Applications are welcome from suitably disabled persons and persons with disabilities of equal capability. Bielefeld University has received several awards for its success in equal opportunities and work-life balance. We offer an in-house day-care centre with the possibility of bilingual education. There is a friendly working environment that is geared to your personal wishes and requirements. 

The call is aimed at nationally and internationally renowned personalities who are able to represent the field of dermatology and venereology. The Medical School OWL is particularly committed to the early promotion of young scientists. To this end, it is expected that the professorship will be taken up by people who will significantly involve themselves in the differentiation of the model degree program of studies in human medicine according to gender and diversity.

Bielefeld University is currently developing an innovative Faculty of Human Medicine with an interdisciplinary focus. The University was founded with Protestant Hospital Bethel (EvKB), Evangelisches Klinikum Bethel, Klinikum Bielefeld Westphalia Lippe (OWL) as well as with a network of general practitioners. University Hospital OWL of Bielefeld is now recruiting leaders with proven leadership experience and expertise in the above-mentioned fields as well as in cooperation with 13 neighbouring faculties, or with the Centre for Biotechnology in the use of genomic, post-laboratory infrastructure and central animal husbandry will be provided. In addition, there are opportunities for cooperation with 13 neighbouring faculties.

As the holder of the position, you will head the Department of Dermatology and Venerology at Klinikum Bielefeld. You will be responsible for the strategic development of the Department in line with the scope of work and the responsibilities of the professorship. This includes the direction of clinical, research, and teaching activities in the Department of Dermatology and Venerology. As a result, you will be directly involved in the implementation of the "clinician" and "advanced clinician scientist" programs expected.

You are a member of the Medical School OWL management board and therefore strongly encouraged to apply. In this respect, the certification as skin tumor center is to be strived for. The Department has a broad research profile and is associated with many different challenges. We would like to offer this professorship to people who will creatively and ambitiously help shape this development in research and teaching. In addition, committed and motivated employees are looking for leaders with proven leadership experience and expertise in the above-mentioned fields as well as a gender-equitable university culture. A wide variety of subjects, perspectives, and people work together in an interdisciplinary way to ensure innovative research and teaching at the highest level. The approximately 25,000 students have access to a differentiated range of subjects in the humanities, natural sciences, social sciences and medicine.

Please submit your application with the following documentation:

- A motivation letter
- Curriculum vitae
- List of publications
- List of teaching responsibilities
- List of grants
- List of third-party funding
- Three letters of recommendation
